Maxema Antibacterial: design and safety

Take care of yourself even when you write: the plastic we use on our Antibacterial collection prevents bacteria from settling on pen surfaces and passing from one hand to the other.

Why choose Maxema Antibacterial Pen?

The plastic used is antibacterial

Certified antimicrobial additive releases silver ions and prevents bacteria from settling on the surfaces of the pen.

Bacteria: up to 99,99% less

Laboratory tests have shown that up to 99,99% of the bacteria on the pen are destroyed.

We Care about your health

Some bacteria can cause disease and infections: make your life still safer, even when you write.

**The world is
changing and
we are changing
with it.**

**MADE IN ITALY
PREMIUM QUALITY**

**POST-CONSUMER
RECYCLED PLASTIC**

**WE MAKE
THE WORLD
WE LIVE IN.**

**Why use plastic once
when it can be turned
into something new?**

For our recycled plastic pens we use materials of European origin that are 100% derived from post-consumer products. When appropriately treated, these guarantee high quality plastics, certified and compliant with RoHS and REACH regulations.

**CHOOSE
BETTER
MAKE IT
LAST.**

**Who said good things
don't last?**

Beautiful to look at and environmentally friendly: with our pens design embraces sustainability. Our new models are made from recycled plastic with eight new shades inspired by the colours of Nature.

Antibacterial

It is made of antibacterial plastic containing a special additive which releases silver ions that prevent bacteria from colonising the surface of the pen.

Really Safe

The plastics employed with European and American FDA food contact regulations.

CLP compliant

It is rated as non hazardous the Regulation on Classification, Labelling & Packaging.

“ Double Protection, for you and for the Environment ”

The New Maxema antibacterial pens are made from 100% recycled plastic from European post-consumer products, to which it comes added a special additive that destroys up 99.99% of bacteria.

“ A Significant step forward toward the use of safe plastic. ”

Nature friendly

Made of non-toxic plastics, it has been designed to have a long life and to minimize the risk of harmful substances being released into the environment. Using a pen for as long as possible helps to reduce pollution and enables us to give full expression to the concept of promotion.

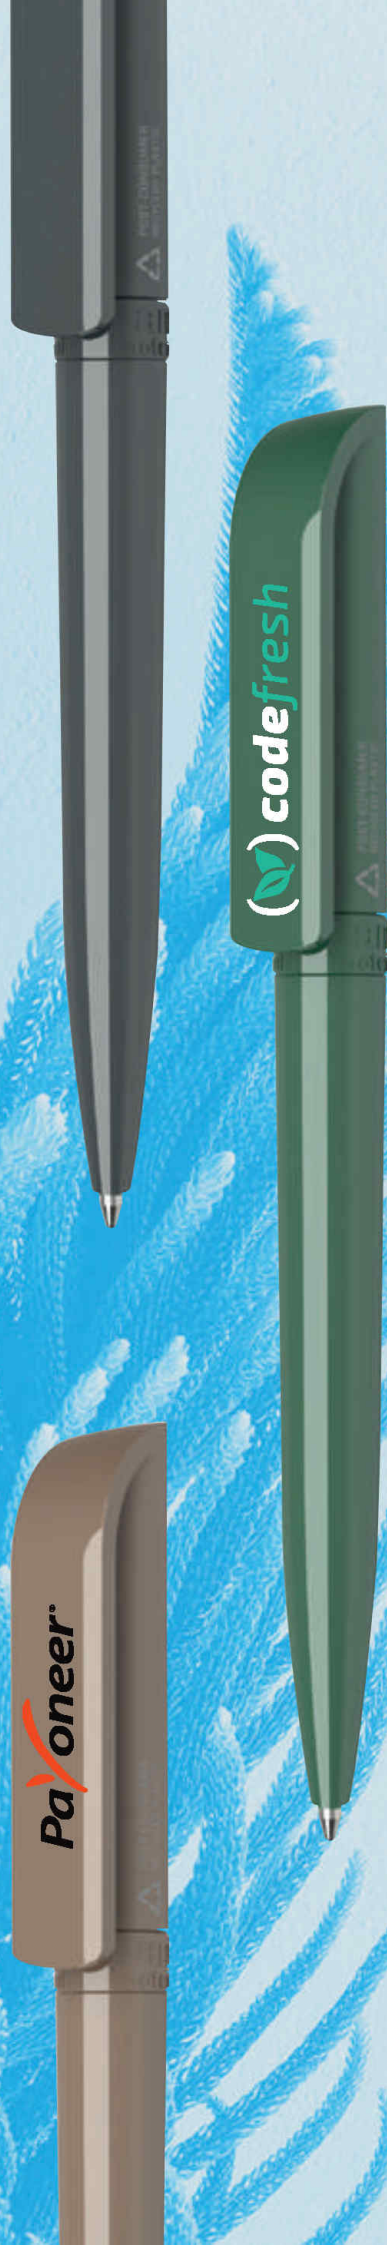

Green Chemical

It does not contain dioxin, phthalates, bisphenol A, antimony, arsenic, barium, cadmium, chrome, mercury, lead, polybrominated biphenyls (PBBs), polybrominated diphenyl ethers (PBDEs) or deca-BDE, and conforms to RoHS

Looking to the future

Looking to the future, Made of plastic suitable for toy manufacture (according to European standard EN 71-03 and U.S. FDA regulations).

“ Design that combines safety and environment friendliness.”

Security meets sustainability: discover our antibacterial pens in recycled plastic, with the Jumbo refill designed for last even longer.
