Bamboo Bluetooth Speaker

MS-07
Bamboo Wireless Speakers
Specifications: A2 Bluetooth speaker in ABS with bamboo coating

Bamboo Bluetooth Speaker

A bamboo Bluetooth speaker is a high-end solution that offers superior acoustics over plastic speakers to improve your listening and music system experience while preserving the integrity of the original sound. This speaker includes Bluetooth 4.2 technology, which ranges up to 50 meters outdoors and up to 10 meters indoors. The sound quality of this Bluetooth version is adequate. The decent design of this little speaker has a wiring system that relieves you of the hassle of managing cables. Compared to non-Bluetooth speakers, this premium speaker is relatively compact, making it portable and simple to carry to the destination.

A 450 mAh lithium-ion rechargeable battery powers our bamboo speaker and offers long battery life. It provides an astonishing three hours of nonstop gaming. The smooth bamboo framework of this environmentally friendly speaker may be used to engrave your business's name or brand for marketing purposes. Your brand will become more well-known and appealing to consumers as a result. Additionally, this eco-friendly gadget is ideal as a present for your loved ones.
