Curve Edge Mugs

169
10 oz Curve Edges White Glossy Finish
Sublimation Ceramic Mug
Specifications: Size: 8.5 x 3.5 inches / Capacity: 10 fl oz

Curve Edge Mugs

Because of their distinctive curved edges that make them look different and more innovative than other ceramic mugs, custom curved edge mugs are quickly becoming our favorite company logo mugs. These mugs are sturdy yet lightweight and portable thanks to the ceramic material that was utilized in their construction. Its straightforward, short handle makes it simple to carry. In addition, the sublimation coating gives the custom ceramic mugs' rough ceramic substance a shiny appearance throughout. These mugs can hold a total of 10 ounces of liquid.

These mugs' distinctive design makes them easy to notice by others, making them ideal for usage as personalized ceramic mugs. These company logo mugs can be personalized with your organization's logo so you can use them as giveaways or corporate goods at events, parties, conferences, and meetings. These mugs have a sublimation coating, allowing you to quickly print your logo on them in Dubai. Additionally, you can alter them for your family members and friends.

- Innovative and fashionable curve edges.
- The entire structure's glossy white dazzling polish.
- 325 ml of liquid can be contained.
- Best presents for family and friends.
- Comes with premium mug printing using sublimation in Dubai.
