Silicone Keychain USB

If you frequently lose important documents and want a permanent solution, we've developed a silicone keychain USB flash drive just for you. The keychain is strong and stylish, making it ideal for holding your keys and a USB with your important documents. The metallic design of this USB can be used to distinguish your business from the competition.

This USB flash drive silicone key chain has a size that allows you to imprint your brand while yet being portable enough to fit in your pocket or bag. For usage as a promotional gift, the laser marking and full-color UV printing make your brand's logo more vivid and colorful. It makes a great event gift, handout, and promotional present for new events like business conferences or meetings and small business promotions.

The silicone keychain is available in white, black, red, green, and blue, among other hues. The keychain's imprinted logo is incredibly beautiful and eye-catching. Not only would it astound visitors, but it will also serve as a traveling billboard for your business.

- Amazing event gift
- Sturdy silicone keychain.
- USB has a sturdy and compact metallic structure.
- 8GB of storage space.
- Portability and lightness.
