Stylus Plastic USB Flash

Stylus USB Flash Drive

The USB flash drive with a stylus contains special and useful items. It is a customized USB flash drive with a stylus that has certain exceptional qualities that clients would value. We provide memory sizes with 4GB to 32GB capacities that can simultaneously store hundreds of files. When used on a smartphone, the stylus flash drive's smartphone touch is more accurate and effective than a standard touch pencil.

Additionally, this promotional USB contains a little loop for securing it to a keychain, preventing loss by the client. The chip may also slide in and out of the USB thanks to a slide-on feature. So, to use the flash drive, all one needs to do is press the button, and a USB chip will emerge.

Additionally, these stylus flash drives offer a printing feature that allows customers to add their company logo and increase advertising. By giving these USBs as promotional gifts or corporate presents, you can use this incredible technological item to advertise any brand.

- Memory capacities range from 4 GB to 32 GB.
- Smooth and distinctive stylus.
- Plastic stylus and an amazing casing.
- Amazing corporate or promotional gift.
- Ring for holding keys.

Printing Option on USB

- Full-Color UV Printing | Screen Printing
