UAE Theme Bottles

TM-007-UAE
UAE Theme Promotional Bottle with Straw
Specifications: Product Size 176 x 230 mm

UAE Theme Water Bottles

The carefully crafted UAE-themed bottles are made with durable Tritan material to guarantee their sturdiness and lifespan. The bottle has three silicone bands meticulously molded into it in the colors of the UAE flag. The bottle's shape makes it easy to open and carry because it forms a holder. Its lid is stylishly black. It also has a straw attached to the lid and a hole outside the cover. They are usually used for national gatherings, such as national day celebrations or university events on numerous national holidays.

The total volume of these promotional water bottles is 500 ml. The fact that students regularly use this style can help you develop your brand with these personalized water bottles for them. The logo or symbol of your company or brand can be added to these promotional water bottles using screen printing. Use these custom bottles with logos for marketing purposes at conferences, meetings, and business campaigns. UAE-themed bespoke bottles are the best for UAE gift sellers.

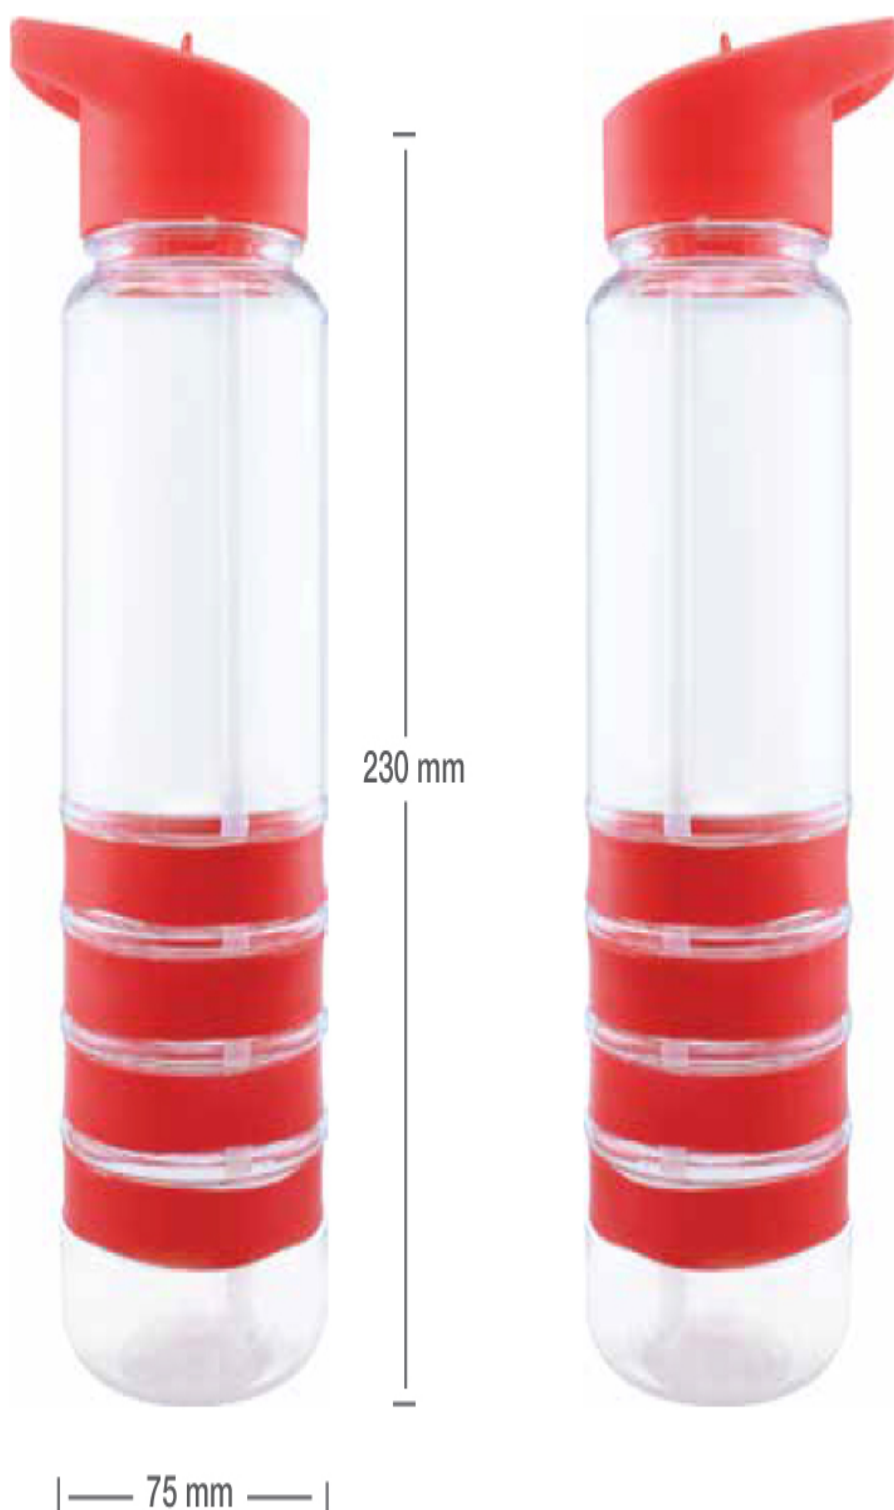

- 500 ml of water carrying capacity.
