White Ceramic Mugs with Silicone Cap and Base

Because of their distinctive color combination, which makes them stand out from other ceramic mugs, white ceramic mugs with silicone caps and bases are fast becoming our favorite personalized ceramic mugs. These mugs are sturdy yet lightweight and portable thanks to the ceramic material that was utilized in their construction. The base and lid are composed of multicolored, flexible silicone that is both sturdy and soft. Its inventive little handle in the form of a heart makes carrying it simple. These mugs have a sublimation coating, making it simple to print your logo in full color on them in Sharjah. These mugs' distinctive design makes them easy to notice by others, making them ideal for use as printed coffee mugs. These printed coffee mugs can also be personalized with the logo of your company or business and used as giveaways or corporate gifts at events, parties, conferences, and meetings. Additionally, the sublimation coating gives the personalized ceramic mugs' rough ceramic substance a matte appearance throughout. Additionally, you can alter them for your family members and friends.

- Ceramic and silicone mugs that are trendy and cutting-edge.
- the structure's whole surface is matte.
- available in red, orange, green, blue, and black.
- offers the choice of high-end Sharjah full-color mug printing.
