Bamboo Wireless Power Bank

Bamboo Wireless Powerbank

A more modern and environmentally friendly alternative to a wired power bank is a Bamboo wireless power bank. Day and night power banks are growing more popular as a result of sophisticated technology and excessive use of smartphones, tablets, and other electronic gadgets. Because of this, wireless power banks are frequently used as giveaways, corporate gifts, and promotional items. These days, bamboo is increasingly widespread. It is a popular tech gift item and makes a great advertising present. This premium wireless power bank has a capacity of roughly 8000mAh and a 5W output. There are two USB outputs, making charging simple.

Additionally, USB has good quality, which improves the wireless charging experience.

- This wireless power bank has an 8000mAh capacity.
- 5W's powerful wireless output.
- Quickly charge your Qi-certified smartphone.
- The power bank will wirelessly charge a phone after the charging cable has been removed.
- The ideal gift or handout item for business events.
- A quick charge takes 3 to 4 hours.
- Green bamboo product.
- Options for logo imprinting include laser engraving and screen printing.

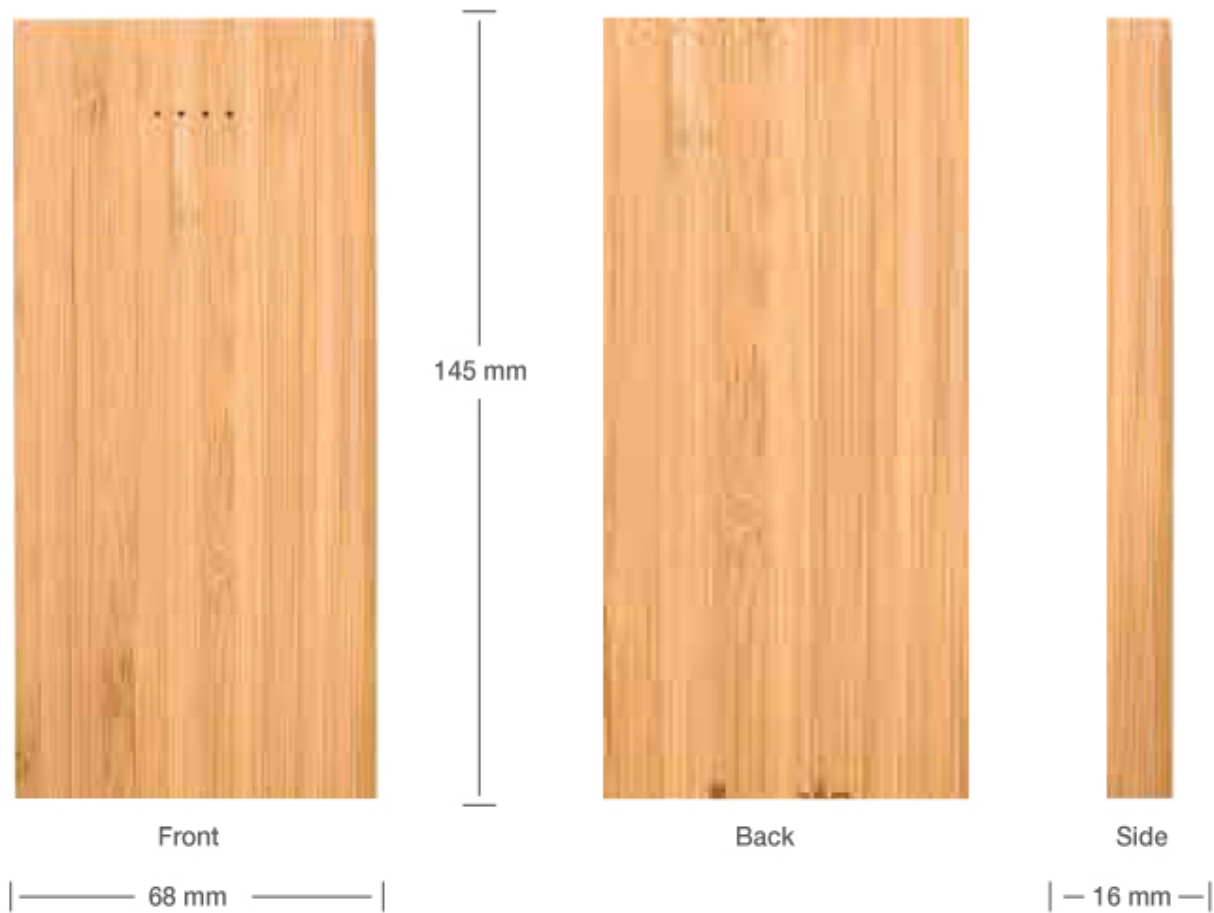

Printing Options

- Laser Engraving and Screen Printing
