Golden Watches

Raphael is a well-known brand of timepieces. These promotional golden watches were constructed of leather and stainless steel. They are therefore dependable, fashionable, and waterproof. The designs of the two timepieces are identical. They also have a classic, refined design. The ladies watch is 28 mm in diameter, while the men's watch is 43 mm. It has a maroon-colored leather strap and a golden, shiny metal frame. Its dial is white, as opposed to the frame's color. Additionally, the needles' numeric markings are golden in color. This branded watch has a plain and unadorned dial. The dial is marked with roman characters. These, therefore, complement their conventional design. Additionally, the dial of the watch contains a square window for the date. This watch's back was constructed of stainless steel as well. The dial and back of branded timepieces are used for advertising. Laser branding is an option for the dial and metal marking is an option for the back. As a result, you can add your brand's name or emblem to them. They will accelerate the development of your brand. Therefore, these chic golden watches make the ideal gift. Additionally, you can alter them for your pals.
