Clear Glass Mug with Bamboo Lid and Spoon

TM-031
Clear Glass Mug with Bamboo Lid and Spoon
Specifications: Capacity: 400-ml

Clear Glass Mug with Bamboo Lid and Spoon

Clear glass mugs with a bamboo spoon and lid are fashionable mugs made of an inventive and environmentally sustainable combination of glass and bamboo. This promotional travel mug is constructed of sturdy glass, while the spoon and lid are made of sustainable bamboo. These mugs' bamboo lids keep your coffee or tea warm and away from a chilly environment. Although you may also use these premium mugs in the summer, they are great for the winter. These mugs' clear glass gives them a brilliantly clear appearance. For screen printing or laser engraving logos, emblems, insignia, and memoranda, bamboo is a fantastic material. These mugs can also be personalized with images. These mugs are lightweight and portable even without the bamboo that was used to make them. At meetings, seminars, and events, this promotional travel mug works wonders to advertise your company or brand. Additionally, you may offer these handmade mugs to your friends as a unique gift.

- 400 ml is the carrying capacity for beverages.
- Eco-friendly bamboo fiber is used for the lid.
- On the bamboo lid, there is high-end screen printing and laser engraving.
- Lightweight and simple to support.
- Good, premium cups
- A wonderful custom mug to give to friends and family.
