DTF Transfer Film

DTF Transfer Film

Brighter & Clearer

DTF transfer film is coated over 10 times, has a stronger ability to absorb ink, and allows brighter colors and clearer patterns.

Premium Double Matte Side:

Transfer sheets are premium double matte sides, which can keep the film running more smoothly and don't slip.

Static Free

The non-printing side of DTF film is specially treated to be Static Free. No powder residue after shaking.

Washable and Durable

The pattern transferred from DTF film can withstand hundreds of washings, and the color can remain unchanged for 2 years in a dry environment.

Compatible and Great Applicable

DTF film can be applied to all color fabrics, such as white fabric, dark fabric, or bright fabric. Fit with all Modified Desktop DTF Printers.

Application
