Digital Mug Press Machines

DHP-01
Digital Mug Press Machine
Specifications: Press Dimensions : 7.8 x 6 cm (3 x 2 1/2 oz Mugs)

Digital Mug Press Machines

Digital Mug Press for Mug Personalization & Printing.

HIGHEST QUALITY

Premium materials with durable, non-stick-coated surfaces are used to create sublimation-printed mugs.

ARRANGEMENT & ACCURATE CONTROL

You may set the appropriate time according to various circumstances thanks to the exact digital time and temperature control. When the predetermined value is reached, the audio alarm will ring.

CHANGE OF OVERLOAD PROTECTOR

A tiny red button on the control box will eject up, protecting the control box and heat plate, when the voltage is unstable or unreasonably high.

MULTIPLE APPLICATION

For heating various designs on various cup types, such as coffee mugs and latte cups, for thermal transfer or sublimation printing, the fully-featured coffee press mug is ideal.
