# Antibacterial Pens Maxema Zink

# Antibacterial Pens Maxema Zink

Antibacterial pens made by Maxema Zink can be customized. They used recyclable and non-toxic ABS plastic in their creations. Because of this, ABS is a very resistant substance. It renders the product antimicrobial as a result. Consequently, using it is safe. It comes in a metallic barrel with a solid white finish. As a result, it has a metallic sheen. The twist-action mechanism in this pen is available. Therefore, when you move the fashionable clip, the nib switches. It is made up of X20 ink. Blue and black ink are both available. Options for screen printing and UV printing are included. So, you can add your company's logo to these business pens to make them uniquely yours. For printing a logo, there are two possibilities. Thus, you have a choice between using the clip and the barrel for printing. As a result, these Maxema Zink promotional pens will aid in increasing your clientele. Consequently, you can use these custom pens at professional gatherings. Therefore, in the UAE, this pen brand is great. These can be personalized with the names of your loved ones.
