Bamboo Pen Holder with 10W Wireless Charger

Bamboo Pen Holder with 10W Wireless Charger

Compared to wired chargers, bamboo pen holders with wireless chargers are more fashionable. But this product is distinct from others. A special promotional item is the bamboo pen holder and wireless charging pair. Because it is renewable and sustainable, bamboo has traditionally been considered an environmentally benign material. It is a pen holder made from biodegradable materials with a bamboo wooden area for wireless charging.

This pen holder's bamboo construction makes it feel incredibly lightweight and cozy to use. This amazing pen holder holds your smartphone firmly and smoothly while it charges wirelessly. This promotional personalized pen holder can be used as a promotional present and corporate gift. It features your company's logo. You may offer your friend or partner this personalized pen holder with a charger as an eco-friendly present with ease.

There are several ways to display your branded pen holder for an online store, including by offering a bamboo pen holder with a variety of engravings so that your clients have options.

- Input: DC9V-2A
- Output: 10W
- Biodegradable natural pen holder.
- The best used as a corporate or promotional gift.
- For a better phone charging experience, choose a wireless charger.
