Stahls Hover Heat Press

STH-Hover
Stahls Hover Press
Specifications: Press Size: 10" x 10" (40 x 40 cm)

Stahls Hover Heat Press

This unique machine works as a Stahl's hover heat press for curing DTG and screen printing inks or as an automatically opening press for applying heat transfers. **Dual functionality makes it great for DTG curing.**

- Great for DTG ink curing
- The auto-open feature helps avoid burning and over-application
- Digital time, temperature, and pressure settings
- Twin Timer? for programming two independent time settings
- Space-saving clamshell design
- Available in 16" x 20" platen
- Compatible with the Heat Press Caddie?

Application of Stahls hover heat press
