Antibacterial Pens Maxema Dot

Antibacterial Pens Maxema Dot

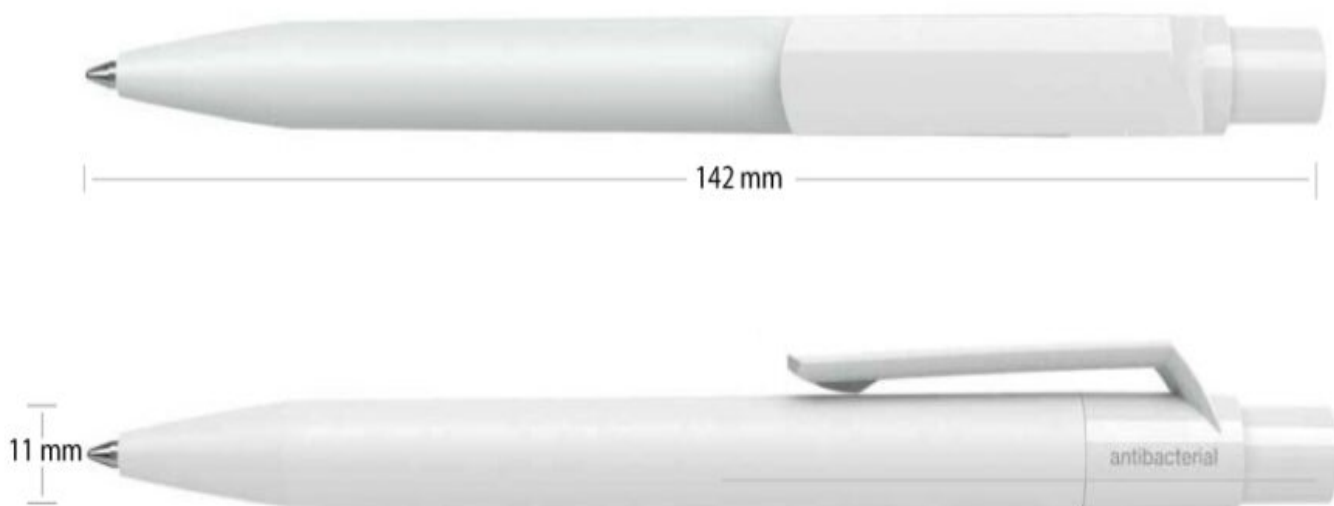

Antibacterial pens made by Maxema Dot are of excellent quality. They used recyclable and non-toxic ABS plastic in their creations. They are hence antibacterial. It comes in a metallic barrel that is plain white in color. The pen's entire construction features a shiny finish. As a result, it has a metallic sheen. All of the microorganisms on these pens' surfaces are eliminated. It is therefore safe to use. Options for screen printing and UV printing are included. So, you may add your company's logo to these inexpensive printed pens. ABS push-button had been chromed and gilded using the galvanic method. Consequently, the retractable spring has a push-button mechanism. This Maxema Dot's rubberized barrel cannot be printed on. Thus, printing a logo is the only available choice. The clip can be used to print logos. Therefore, these low-cost printed pens with logos will assist you in luring in new clients. These premium presents are appropriate for professional gatherings. As a result, these are great products for Qatari promotional gifts. Therefore, you can personalize this premium present with the names of your loved ones.
