Wireless Headphones

Wireless Headphones

Bluetooth-enabled wireless headphones are more sophisticated versions of wired earbuds or headphones. The cushioned constructions of these promotional headphones are carefully made to deliver exceptional sound quality. Thanks to their wireless Bluetooth functionality, these headphones eliminate the hassle of managing wires. These headphones' cushioned construction has an outside ambiance that is sufficient to imprint a mark or insignia.

The headphones are also excellent corporate or promotional presents. Headphone charging takes less time. You can insert your card into the TF card reader slot and play music continually. Safe and secure sound quality is provided. The design of the headphones provides fantastic coverage. These headphones are a great option to give your friends and family a technical gift.

- Available in dazzling silver and black.
- For your brand's logo, a quick logo printing option is available.
- Fantastic playtime
- Size of Item: 160 x 180 x 80 mm Excellent construction and design.
- Best used as a promotional tech gift or corporate gift during company or promotional events.
- The fast-charging solution is portable and light.

Printing Options on Wireless Headphones

- UV Printing | Screen Printing | Laser Marking | Digital Printing with Epoxy
- Sublimation Printing: Attach an Aluminum plate for full-color sublimation printing.
