Light-Up Silver Metal 16GB USB

USB-69
Silver Metal Light-Up USB Flash Drive
Specifications: Available Capacity: 4, 8, 16 or 32 GB

Light-up Logo Silver Metal 16GB USB

The most exquisite custom USB drive is the light-up logo USB, designed for the most affluent USB drive users. Second, USB has a printable, high-quality metal casing. It also includes a fully enclosed chip system for better durability and water resistance. The metal USB is the best option for file transport and backup solutions for businesses, IT professionals, and other users who like the premium appearance and feel of an actual silver metal container.

Additionally, the 16GB USB features a useful area for printing your branding logo or symbol to utilize as a giveaway or promotional item for your business. This personalized flash drive looks distinctive and imaginative because of its lengthy and distinctive case. Innovatively, when the USB is connected to any electronic device, like a laptop or desktop, the light-up logo space illuminates. You can personalize this USB with innovative and eye-catching layouts to use as a promotional gift or for gifting purposes. You can personalize these USBs with any name or brand for an online retailer.
