A3 DTF Printer with Dryer Machine

DTF-A3
A3 Inkjet Printer with Dryer Machine
Specifications: Product Size: 900 x 900 x 470mm

A3 DTF Printer with Dryer Machine

A3 Roll-to-Roll DTF Printer with New Technology for Printing on Any Fabric, T-shirt, Shoes, Jeans, and Bags.

Product Description

This printing solution consists of three parts: (1) a Sublimation printer for pigment ink (2) A machine for shaking powder, (3) A heat press, and (4) printing supplies. Advantage (1) Universal application, suitable for T-shirts made with any fabric type and backdrop color. (2) After printing, cutting vinyl separately is unnecessary, saving time and labor; (3) Consumables are less expensive, and the result is superior to that of standard sublimation printing.

Shaking powder machine

PET Bottle Blowing Semi-Automatic Machine for making bottles Machine for molding bottles PET plastic containers and bottles of any form can be made using a PET bottle manufacturing machine.
