Digital High-Pressure Heat Press, Manual 40x50 cm

Digital High-Pressure Heat Press, Manual

A digital high-pressure heat press machine that utilizes heat in order to apply designs onto various substrates. It uses a combination of pressure from the heated upper platen onto the lower platen in order to achieve its results. The heat presses are used to apply heat transfers onto a range of garments.

- Digital High-Pressure Heat Press, Manual, Clamshell, 40x50 cm
- Controller: GY-04 Digital Time & Temp. Control
- Temperature Accuracy: ±0.5%
- Solid Steel welded framework
- Digital temperature&time setting
- Automatic alarm, Temperature&time recycle

Application
