Round Magnetic 15W Fast Wireless Charger Type C

Round Magnetic 15W Fast Wireless Charger Type C

The Magnetic 15W Fast Wireless Charger Type C is a charging accessory designed to provide fast and convenient wireless charging for compatible devices.

Features and Specifications

1. **15W Fast Charging:** This charger is capable of delivering up to 15 watts of power, allowing for rapid charging of supported devices. It's important to note that the actual charging speed may vary depending on the device's compatibility and power requirements.
2. **Wireless Charging:** It employs wireless charging technology, which means you can charge your device simply by placing it on the charging pad without the need for any cables.
3. **Magnetic Design:** The charger likely incorporates magnetic alignment to securely hold your device in place while charging. This feature ensures proper positioning for efficient charging and may be particularly useful for devices that support magnetic attachment, such as certain iPhone models.
4. **Type-C Connectivity:** The charger likely uses a Type-C connector for power input. This modern connector type offers fast data transfer speeds and is reversible, meaning you can plug it in either way for convenience.
5. **Compatibility:** It's essential to ensure that your device is compatible with the charger's power output and wireless charging standards. Some devices may not support fast charging or wireless charging at all, so it's a good idea to check compatibility before purchasing.
6. **Safety Features:** Look for safety features such as overcharge protection, temperature control, and foreign object detection to prevent damage to your devices and ensure safe charging.
7. **Design and Build:** Consider factors such as the charger's size, build quality, and design aesthetic to ensure it fits well with your workspace or home environment.
8. **Certifications:** Chargers that are certified by organizations like Qi, FCC, or CE may offer added peace of mind regarding their safety and performance standards.

When purchasing a magnetic 15W fast wireless charger, it's essential to verify these specifications and ensure compatibility with your device to enjoy optimal charging performance.

Specification

- Output: 15W.
- Input : 5V-2A / 9V-2A/ 12V-1.5A.
- Type-C, 100 cm long cable.
- Packing Description: Black Carton Box.
- Inside the Box : (1) Wireless charger (2) user manual.
