Silhouette Cameo 4

Silhouette Cameo 4

The Silhouette Cameo 4 desktop cutting machine has a 12-inch width and can accurately cut through vinyl, cardboard, fabric, and other materials.

Machine features include

- With the integrated roll feeder, you can swiftly load and cut rolled materials like vinyl and heat transfer.
- The built-in cross-cutter allows you to cut vinyl or heat transfer right from the roll.
- There is a 3 mm clearance for materials that are thicker.
- The sliding lid and lit touch panel on your PC give it an appealing, small appearance.
- Bluetooth® connectivity makes wireless cutting possible.
- Registration printing and cutting capabilities
- The project's engine, Free Silhouette Studio® software that complies with PixScan™ standards, gives you a wide range of design options.
- Mac and Windows are compatible.

Contains

- Power cable & USB cable
- 12-inch Cutting Mat
- Auto Blade
- Silhouette Studio® software (download)
- 100 exclusive designs (download)
- 1-month Silhouette Design Store subscription (available with tool registration)
