Earphones with Protective Case

EAR-01
Earphone with protective case
Specifications: Earphone with a 3mm earphone jack. Cable length: 100 cm

Earphones with Protective Case

The design of earbuds with cases is distinctive compared to other earphones. These earphones are made to fit comfortably in your ears and provide high-quality music. These promotional earphones for smart devices spare you the hassle of charging thanks to their cable connection and lack of a charging port. These earbuds' outer casing features an outdoor setting that is sufficient to imprint a logo or insignia. Your company's or brand's logo can be imprinted quickly using alternatives like screen printing or UV printing.

These headphones are distinctive enough to be given as giveaways or business gifts. You may listen to music continuously whenever and wherever you want without having to worry about charging any equipment, and when not in use, you can store your earbuds in their safe case. Safe and secure sound quality is provided. The design of the earbuds ensures a perfect fit. These earphones are a great option if you want to offer your friends and family a technical gift.

- Readily available in white.
- For your brand's logo, a quick logo printing option is available.
- 3 mm long earphone jack.
- Best used as a corporate or promotional present during business or promotional events.
- Protective case that is portable and light.
