Coin Saving Bank

142
Ceramic Coin Bank
Specifications: Product Size: 80 x 50 mm

Ceramic Coin Bank

A high-quality, straightforward, and plain saving item is a coin bank. They were made of top-quality ceramic materials. They are sturdy and dependable as a result. As a result, it won't crack easily. The cash is kept inside of it securely. It is made up of a solid white structure. However, the structure is also covered in sublimation. It is hence useful for storing coins.

Additionally, it is minimal and light. It doesn't require much space. The top of the box has a coin-shaped region where coins can be placed. It offers the option of sublimation printing. On the cylindrical side of the coin-saving bank is where the logo is located. As a result, this promotional item is simple to customize. These savings banks are great for building brand recognition for a business or store. You can give these away to your clients and customers as promotional presents for their kids. So that when they see such an elegant corporate present, others can learn about your invention and comprehend you. You can therefore use this coin-saving bank as a promotional gift to showcase your innovation.
