Metal Name Badges

Metal name badges with printing option. Metal name badges with printing option. Name badges made of metal can be personalized by having the employees' names, corporate logos, and a wide variety of other designs printed on them in a way that gives them an exceptionally professional appearance. You have the option of selecting a gold or silver metal finish, and if you want to add some artistic flourishes, you may even add borders to your design! Because of the coating's resistance to scratching, both your company logo and the names of your employees will retain their stunning appearance for an exceptionally long time.
