2023-SS-WOP Stainless steel Badge
Specifications: Size: 75 x 25 mm

Metal Name Badges

Metal name badges are a popular choice for businesses and organizations looking to create a professional and durable identification solution. Typically made from materials like aluminum, brass, or stainless steel, these badges offer a sleek, polished look that enhances brand image and withstands daily wear. They often come in finishes such as brushed gold, silver, or stainless steel, and can be customized with full-color logos, names, titles, and other details using techniques like digital printing with epoxy, laser engraving, or dye sublimation. Many badges feature magnetic backings for easy attachment without damaging clothing, though options like pinbacks or clips are also common. They're ideal for industries requiring a high-end appearance, such as corporate settings, hospitality, or events like conferences and trade shows. Some providers emphasize durability with protective coatings, like epoxy, to prevent scratches, while others offer eco-friendly options using recyclable metals. Customization is widely available, with no minimum order quantities from many suppliers, and turnaround times can be as quick as one to two business days.

- Manufactured from premium metal stainless steel with nickel and gold plated.
- Available Size: 75 x 25 mm
- Available colors: Silver and Golden.
- Digital printing options and epoxy coating are available for logo imprinting.
- Affordable ID solution.
