3-in-1 Rotating Wireless Charging Station – Silver (15W Fast Wireless Charging)

Charge your phone, earbuds, and smartwatch simultaneously with this **Magnetic, Rotating wireless charging station 15W, featuring** a premium **silver matte finish**. Designed for convenience and performance, this all-in-one station supports **Qi-standard fast wireless charging** and features a **touch-controlled rotating base** for optimal angle adjustment. **Stay powered in style with this sleek, magnetic, and multi-functional charging station.**

What is Magsafe?

MagSafe utilizes magnetic connectors and accessories, designed to make the charging and attaching process more efficient and seamless.

How Does MagSafe Work?

MagSafe Charger: The MagSafe charger contains a ring of magnets and a charging coil. When you place an iPhone with MagSafe support (iPhone 12 and later) on the charger, the magnets align the phone with the charging coil, ensuring the most efficient and stable connection for faster wireless charging.
