Key-shaped USB Flash Drives

Key-shaped USB flash drives are best known for fast transmission, incredible storage, and modern design. For **corporate gifts**, this USB is excellent for storing data related to your business, school, or everyday life. The friendly structure of this USB is Cap-less, slim, portable, and easy to carry. Regardless of its cap-less design, the whole structure of this **customized USB** is water-resistant, dust-proof, and shock-proof. The electronic part of this **personalized item** is crafted in a square-shaped part at the end of the key structure. The PCBA technology makes it much safer and more reliable to use as a **corporate gift**.

It is super compatible with laptops, desktops, tablets, and mobile phones. Moreover, the shape of this USB's electron chip connects to the memory card slots of electronic devices. The key area of this **key-shaped USB** is ideal for imprinting labels, logos, and names of your firm or corporation. We have introduced laser marking, screen printing, and UV printing to boost your advertising and make your brand stand out from the crowd.

- Attainable in three memory sizes: 4GB, 8GB, 16GB, and 32 GB.
- Available in four colors: Black, red, silver, and white.
- Shockproof metallic structure
- Reliable and safe.
- A **customized USB** is the **best personalized gift**.
