Light Up Multi Charging Cable

Light Up Multi Charging Cable

For simultaneously charging several devices, the light-up multi-charging cable with a snap hook is ideal. Therefore, you are no longer required to carry a network of cords to charge your various electric devices. It is a charging cable with three connectors: a Type C cable, a lightning cable, and a micro USB cable.

Additionally, this promotional item has a sleek and smooth surface because it is constructed of plastic and metal. Additionally, the logo of your business can be added to this promotional item. When connected to the socket, this multi-charging USB cable with a light-up logo illuminates your company's logo.

These are convenient and lightweight, and they spare you the hassle of carrying numerous wires to charge various devices. The logo imprinted on the USB cable makes it the ideal business presentation for your colleagues because it will draw attention. used to charge practically all mobile phone devices, including Samsung, iPhone, and others. For your professional gatherings, it will be a contemporary event present. This USB cable with many charging ports is ideal as a corporate gift or event favor.

- Made of metal and plastic.
