Flag Pens Maxema Ethic

Flag Pens Maxema Ethic

Italian-made Maxema Ethic Flag Pens are very well-liked in Asia and the Middle East. The best Italian brand. The message it delivers, together with the pen's ethics, which do not adhere to trends or fashion, is meant to endure. Without sacrificing any of its inherent elegance, it is a pen that can be customized to a fantasy. Although it is a twist action pen, it was built so that it could be printed easily in a number of colors, even with a register. There is plenty of area for advertising slogans on the body, the cap, and the top. Glossy white barrel and cap with a dazzling silver clip.
