Digital High-Pressure Heat Press, Manual 40x50 cm

HPM-02
Digital High Pressure Heat Press, Manual, 40x50 cm
(Heating Area/Platen Size: 400 x 500 mm)

Digital High-Pressure Heat Press, Manual

A digital high-pressure heat press machine that utilizes heat in order to apply designs onto various substrates. It uses a combination of pressure from the heated upper platen onto the lower platen in order to achieve its results. The heat presses are used to apply heat transfers onto a range of garments.

- Digital High-Pressure Heat Press, Manual, Clamshell, 40x50 cm
- Controller: GY-04 Digital Time & Temp. Control
- Temperature Accuracy: $\pm 0.5\%$
- Solid Steel welded framework
- Digital temperature&time setting
- Automatic alarm, Temperature&time recycle

Application
