Photo Crystals in Sunflower Design

210-F
Photo Crystal
Specifications: Product Size: 90 x 90 mm

Personalized Crystals

Elegant crystals with a sunflower motif are called photo crystals. They were made of transparent, glassy crystal. Consequently, they are clear and elegant. They are also dependable and durable. The dimensions of this round crystal are 16.5 x 15 cm. Its edges are beveled in a circle. They can be altered. As a result, the majority of individuals utilize these photo crystals to save photos. They are also excellent as tiny image prizes for almost every event. The glassy crystal is glitzy because of its base's lesser grade. You may thus utilize these crystals to create unique crystals. This crystal's design was incredibly ornate while still being beautiful and exquisite. They can also be used as decorative items.

It offers the option of sublimation printing. As a result, you can personalize them with different images. These personalized crystals are particularly fantastic for professional gatherings. They can be personalized with your logo and used for business events. They are good unique presents for your family and friends. These printed crystals can be personalized with special images.
