- **UV Printing** – vibrant full-color logo printing

Recommended Branding Area: **Barrel Surface** — suitable for company logo, website URL, or QR code.

## FAQs

**1. What is an NFC Smart Pen?** An NFC Smart Pen is a pen with a built-in NFC chip that allows users to share digital content, such as a website, contact details, or social media, with a simple tap on an NFC-enabled smartphone. **2. Do I need an app to use the NFC pen?** No. Most NFC-enabled smartphones can read the NFC chip instantly without installing any app. **3. What can the NFC pen share when tapped?** The pen can open a website, display a digital business card, save contact details, or link to social media profiles. **4. Can the NFC Smart Pen be customized with a logo?** Yes. The pen can be branded using **Laser Marking (engraved logo)** or **UV Printing (full-color logo)** on the barrel. **5. Where can NFC Smart Pens be used?** They are ideal for **business networking, corporate promotions, exhibitions, trade shows, and marketing campaigns.**
