Ceramic Mugs with Lid and Cork Base

Custom Large Ceramic Mugs with lid and cork bases are distinctive, fashionable, and environmentally responsible ceramic mugs with a special ceramic and cork material combination. The base is constructed of environmentally friendly cork, while the lid and cup are made of durable ceramic material. These mugs' cork bases help to keep your coffee or tea hot and out of the refrigerator. Although you may also use these [personalized coffee mugs](#) in the summer, they are great for the winter.

These custom large coffee mugs made in the UAE come in a striking matte black color that is ideal for printing logos, emblems, insignia, and messages. These custom coffee cups are also ideal for personalization with a photograph. These mugs are nonetheless lightweight and compact despite the cork they contain. For later enjoyment of your coffee, the chic lid entirely conceals the aperture. At meetings, seminars, and gatherings, these branded coffee mugs work wonders for marketing your company. Additionally, as a personalized gift, you may send your pals these printed coffee mugs.

Material

- **Ceramic:** Known for its durability and ability to retain heat, ceramic is a popular material for mugs. It ensures the drink stays warm for a longer period.
- **Cork Base:** The cork bottom provides a natural, eco-friendly touch. Cork is non-slip, which prevents the mug from sliding on surfaces and also adds a stylish, rustic appearance.

Capacity

- With a **385 ml capacity**, these mugs are perfect for a typical serving of coffee, tea, or any hot beverage. It's a slightly larger size than a standard coffee mug, offering a comfortable amount of liquid.

Lid

- The **lid** serves multiple purposes: it helps retain heat, prevents spills, and can be used to cover the drink when not in use. Some lids may also have a hole for easy sipping or a small handle for convenience.
- The lid could be made of materials like ceramic, bamboo, or even silicone, depending on the design and purpose. A **ceramic lid** matches the aesthetic of the mug, while a **silicone or bamboo lid** might add a more modern or eco-friendly touch.

Design and Aesthetics

- These mugs typically have a **sleek and modern** design that's visually appealing. The cork base contrasts beautifully with the ceramic body, giving it a rustic yet contemporary vibe.
- The **neutral tones** or subtle colors of the ceramic mug allow it to fit in various settings, from home kitchens to office spaces.

Eco-Friendliness

- The use of a **cork base** is a sustainable feature, as cork is a renewable material. It's also biodegradable and helps reduce the environmental footprint of the product.
- Many ceramic mugs are also lead-free, making them safer for everyday use.
