

Create and share your artwork preview

Upload logos, add text, adjust the design directly on the product, then download, share, or include it with your quotation request.

Logo formats

PNG, JPG, JPEG, SVG

Maximum size

5 MB per uploaded file

Number of logos

Up to three logos

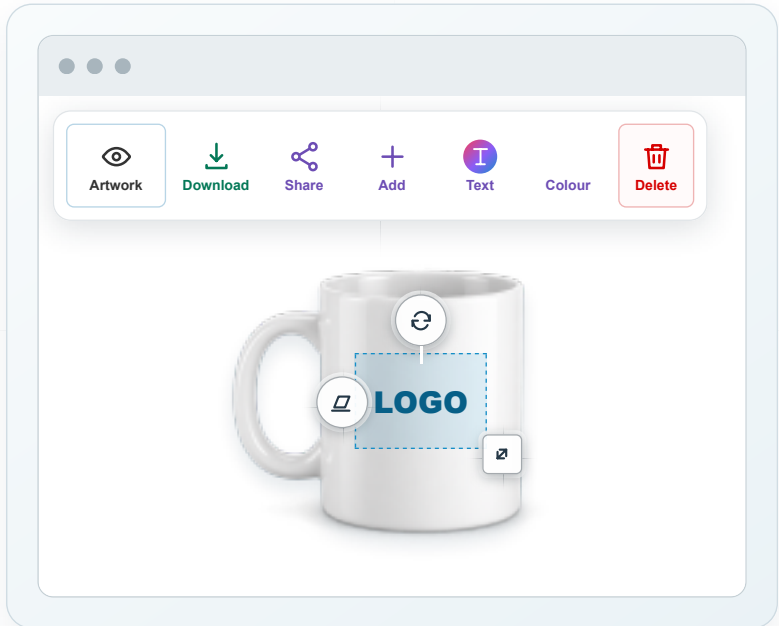

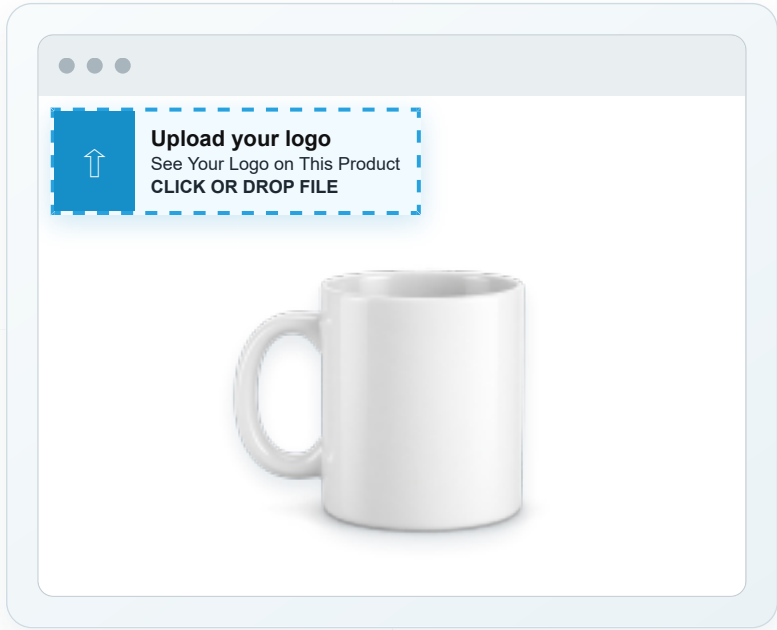

Best result

High-resolution PNG or SVG

1 Upload your logo

Select **Upload your logo**, then choose a supported image. You can also drag and drop the file onto the upload area.

- The enlarged gallery opens automatically after upload.
- Use PNG or SVG for the cleanest edges.
- Files larger than 5 MB are rejected.

2 Position and resize

Touch or click the logo to select it. Drag the logo onto the required print position and use the corner handle to resize it.

- Desktop: drag with the mouse.
- Mobile: move with one or two fingers; pinch with two fingers to resize.
- Artwork is limited to 80% of the gallery area.

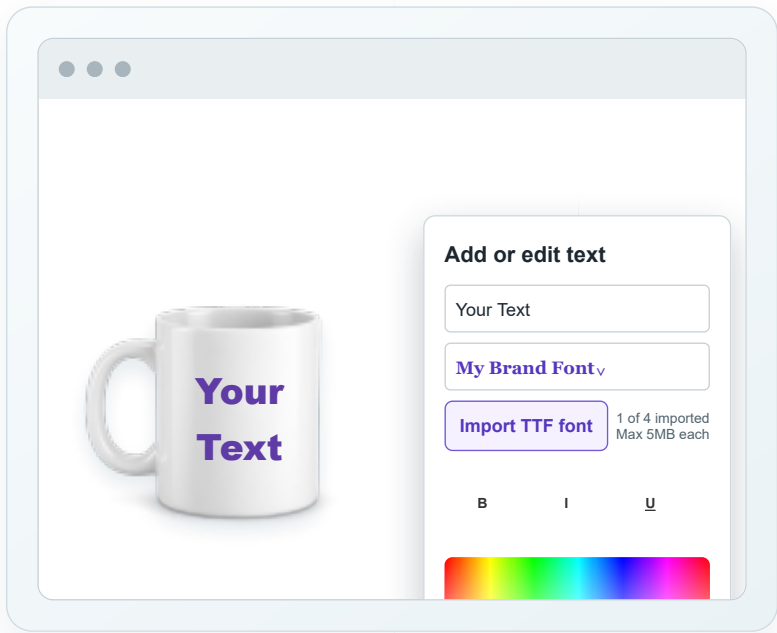

Controls hide automatically for a clear product view. Select or hover over the artwork to show them again.

3 Rotate and tilt

Drag **Rotate** around the artwork for flat rotation. Drag **Tilt** horizontally or vertically for perspective on angled products.

- Click Tilt repeatedly for horizontal 16° steps.
- The click range ends at 180°; the next click resets it.
- On mobile, two-finger twisting also rotates the artwork.

4 Add, import fonts and format text

Select **Text**, type your wording, and preview changes live.

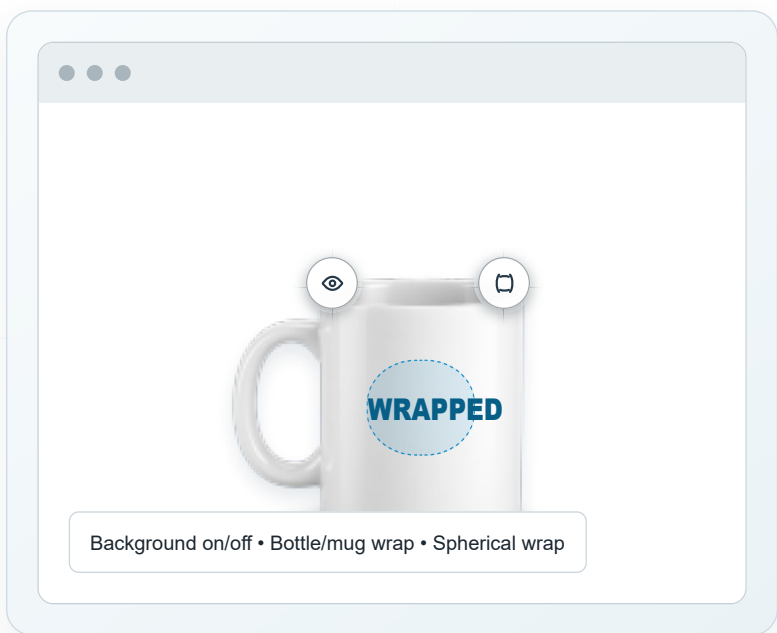

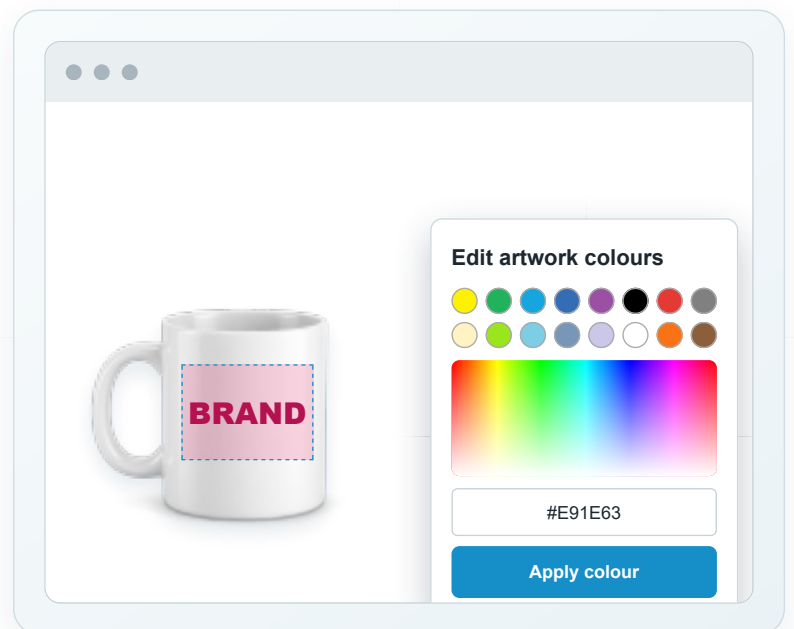

- Choose trendy English or Arabic fonts.
- Select **Import TTF font** to add your own typeface. You can import up to four **.TTF** files, with a maximum size of 5 MB each.
- The newly imported font is selected automatically and appears in the font dropdown with its real style preview.
- Apply bold, italic, underline, size, spacing, and colour.
- Use Undo or Redo inside the editor.
- Text can be moved, resized, rotated, tilted, and wrapped like a logo.

Imported fonts stay in the current browser session. If the page is refreshed, import the font again.

5 Change colours

Select artwork or text, then choose **Colour**. Pick a preset or choose a precise shade from the spectrum.

- HEX and CMYK values update with the selected colour.
- Changes preview live.
- Close without applying to keep the previously applied colour.

6 Background and wrapping

Use the background controller to show or remove the logo background. Use Wrap to simulate printing on bottles, mugs, cans, or rounded products.

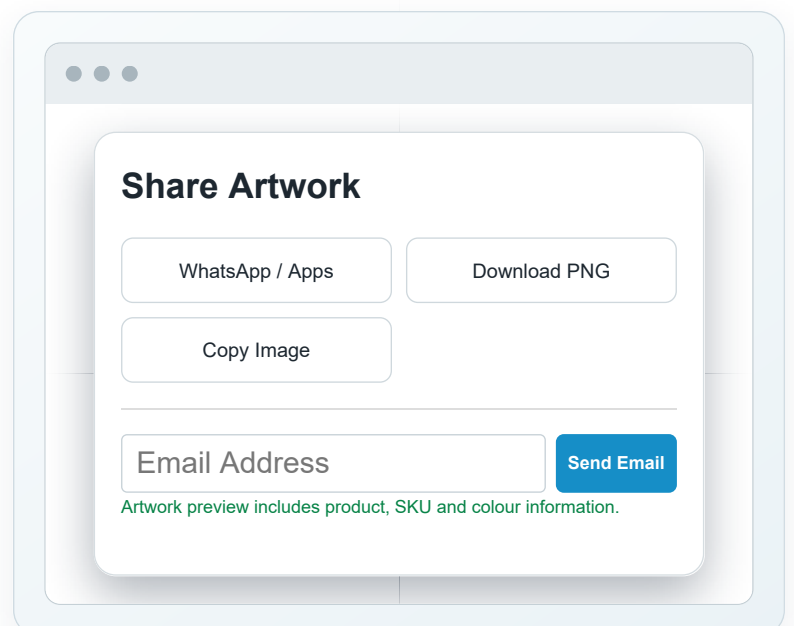

- First wrap mode: cylindrical products.
- Second wrap mode: spherical products.
- Third click: remove wrapping.

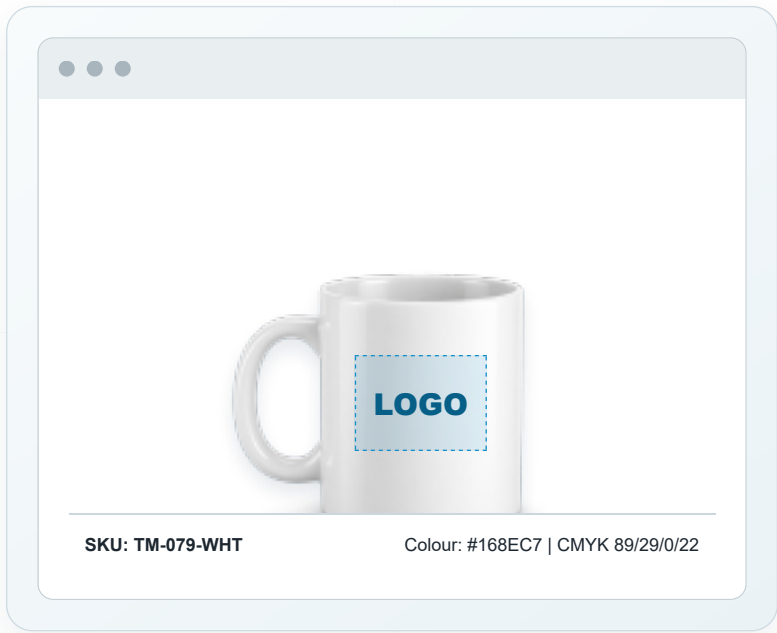

The preview is a visual guide. Final artwork placement and print feasibility are confirmed with the quotation.

7 Download or share

Select **Download** for a PNG, or select **Share** to send it through an installed app, copy the image, or email it as an attachment.

- Email includes product name, SKU, and product URL.
- The email button pauses for eight seconds after a successful send.
- Copied and downloaded previews include SKU, HEX, and CMYK details.

8 Request your quotation

Once the artwork looks right, continue with the product's **Request a Quote** action and choose the quantity.

- The customised product preview is carried into the quote cart.
- The submitted RFQ email and order contain the product with artwork.
- Original uploaded artwork files are available separately to the sales team.

Quick workflow

Upload → Position → Resize → Rotate/Tilt → Add text or colours → Download/Share → Request a Quote

If controls disappear

Select the artwork again. Controls intentionally hide after a short delay for a clean view.

If a file is rejected

Confirm it is PNG, JPG, JPEG, or SVG and no larger than 5 MB.

If email verification fails

Refresh once, allow reCAPTCHA, disable aggressive browser blocking for the page, and try again.

For the best quotation

Attach the original high-resolution artwork and describe the required print position, size, and quantity.
